

IKUSASA ENGINEERING
— CONSULTANTS —

COMPANY PROFILE

“Engineers turn dreams into reality, building solutions that shape a better tomorrow.”

ABOUT US

Ikusasa Engineering Consultants (Pty) Ltd was established with a clear and ambitious vision – to become a proudly South African company that contributes meaningfully to the country's built environment sector. Since inception, we have dedicated ourselves to providing sustainable, innovative, and cost-effective engineering solutions tailored to the unique needs of our clients.

As a 100% black-owned and managed enterprise, with 51% black female ownership, Ikusasa Engineering Consultants stands as a beacon of transformation and empowerment within the engineering industry. We are an Exempt Micro Enterprise (EME) with a Level 1 B-BBEE rating, ensuring our clients benefit not only from our technical expertise but also from our commitment to advancing inclusive growth.

Our foundation is built on integrity, professionalism, and a passion for engineering excellence. By combining technical knowledge with a client-focused approach, we ensure that every project we undertake is delivered with precision, efficiency, and lasting impact.

OUR VISION

Our vision is simple yet powerful: **“To engineer the future using sound engineering principles for a sustainable future for all.”**

We believe that engineering plays a central role in shaping society. From the buildings we live and work in, to the infrastructure that connects communities, our work is dedicated to creating solutions that stand the test of time while supporting economic growth and environmental stewardship.

OUR MISSION

At Ikusasa Engineering Consultants, our mission is to provide professional services that are grounded in integrity and driven by best practice. We are committed to offering efficient and cost-effective solutions, ensuring that our clients' needs are always placed at the forefront. Every project we undertake is guided by a desire to exceed expectations, maintain transparency, and deliver measurable value to stakeholders.

OUR CORE VALUES

We conduct our work guided by values that shape who we are and how we serve our clients.

INTEGRITY

Integrity is the cornerstone of our business, ensuring honesty and accountability in every decision we make.

EXCELLENCE

Excellence drives us to deliver work of the highest standard, never compromising on quality.

TRANSPARENCY

Transparency allows us to build lasting relationships with our clients through clear communication and trust.

INCLUSION & EQUALITY

Inclusion and Equality reflect our dedication to transformation, empowerment, and creating opportunities for all.

These values are not simply words on paper; they are principles embedded in every aspect of our operations.

SERVICES WE OFFER

Ikusasa Engineering Consultants provides a wide range of services across civil and structural engineering disciplines, project management, and contract administration.

Our Structural Engineering expertise covers residential, commercial, and industrial projects, where we bring innovative designs that combine strength, safety, and aesthetic appeal. Our Civil Engineering services address critical infrastructure needs including roads, stormwater management, water supply, and sanitation systems – ensuring that communities and industries are supported by reliable, sustainable infrastructure.

In addition, our Project Management and Contract Administration services ensure that projects are delivered on time, within budget, and to the highest standards. We coordinate effectively with stakeholders, contractors, and suppliers to ensure seamless execution from conception to completion.

OUR EXPERTISE & APPROACH

What sets Ikusasa Engineering Consultants apart is not only our technical expertise but also the way we approach every project. We believe in a collaborative process – listening closely to our clients, understanding their objectives, and designing solutions that are both innovative and practical.

Our approach is deeply rooted in sustainability, with every project evaluated for its long-term environmental, economic, and social impact. We balance creativity with practicality, ensuring that our engineering solutions are both visionary and achievable.

OUR TEAM

Ikusasa Engineering Consultants is led by a team of Professional Engineering Technologists with extensive experience across a diverse portfolio of civil and structural projects. Our leadership brings not only technical expertise but also the ability to manage complex projects with efficiency and foresight.

We draw on the skills of both in-house professionals and external specialists to ensure that we deliver value-driven results. Our team culture is built on mentorship, knowledge sharing, and continuous professional development, ensuring that we remain at the forefront of industry developments while empowering the next generation of engineers.

PROFESSIONAL AFFILIATIONS & COMPLIANCE

As a company committed to professional excellence, Ikusasa Engineering Consultants maintains affiliations with leading industry bodies. We are proudly registered with the Engineering Council of South Africa (ECSA), the South African Institute of Civil Engineering (SAICE), and the National Home Builders Regulation Council (NHBRC).

Our compliance with national regulations and health and safety standards ensures that we deliver work that not only meets but exceeds industry requirements. Clients can trust that every project we undertake aligns with best practices and legal frameworks.

COMMITMENT TO TRANSFORMATION & SUSTAINABILITY

As a proudly South African company, we are passionate about contributing to transformation within the engineering sector. By being majority black female-owned, we embody the principles of empowerment and inclusivity.

Sustainability forms the backbone of our operations. We strive to integrate environmentally conscious practices into our engineering solutions, recognizing that our work has a direct impact on the environment and on future generations.
